**EXOTIC METAL GUITARIST DAN KELLER**  
**AKA "SULTAN OF STRING"**  
**DELIVERS A NEW ALBUM: "ELECTRIC STORM"**

The last TRUE EXOTIC METAL guitarist!

**Baetterkinden, Switzerland, January 31 2004** – Dan Keller aka "Sultan Of String", will release his EXOTIC METAL album on February 2004.

EXOTIC METAL? YES! It stands for **haunting melodies, screaming guitars, catchy and powerful rhythms**. A musical style in demand, but seldom provided.

Surely you remember Marty Friedman's great exotic influenced albums - milestones. Or the band "Cacophony" featuring Marty Friedman and guitar wizard Jason Becker. Now, Sultan Of String advances that exciting musical style and invites you on a journey to a musical world full of feeling and power.

**It's not something new, but...**

*Undermetal Magazine* states: "It's not something new since Marty Friedman and Jason Becker developed this style before, but to be honest, Dan is the most competent guitarist since them. Sometimes I've asked myself if it isn't Marty Friedman playing on this CD!"

Sultan Of String successfully continues what he started with his contribution to the "Jason Becker Tribute" album (Japan release).
